NoCap: Fact Checking with AI Milestone 2

Anthony Ciero, Joshua Pechan, Varun Doddapaneni, Thomas Chamberlain
Faculty Advisor: Professor Silaghi
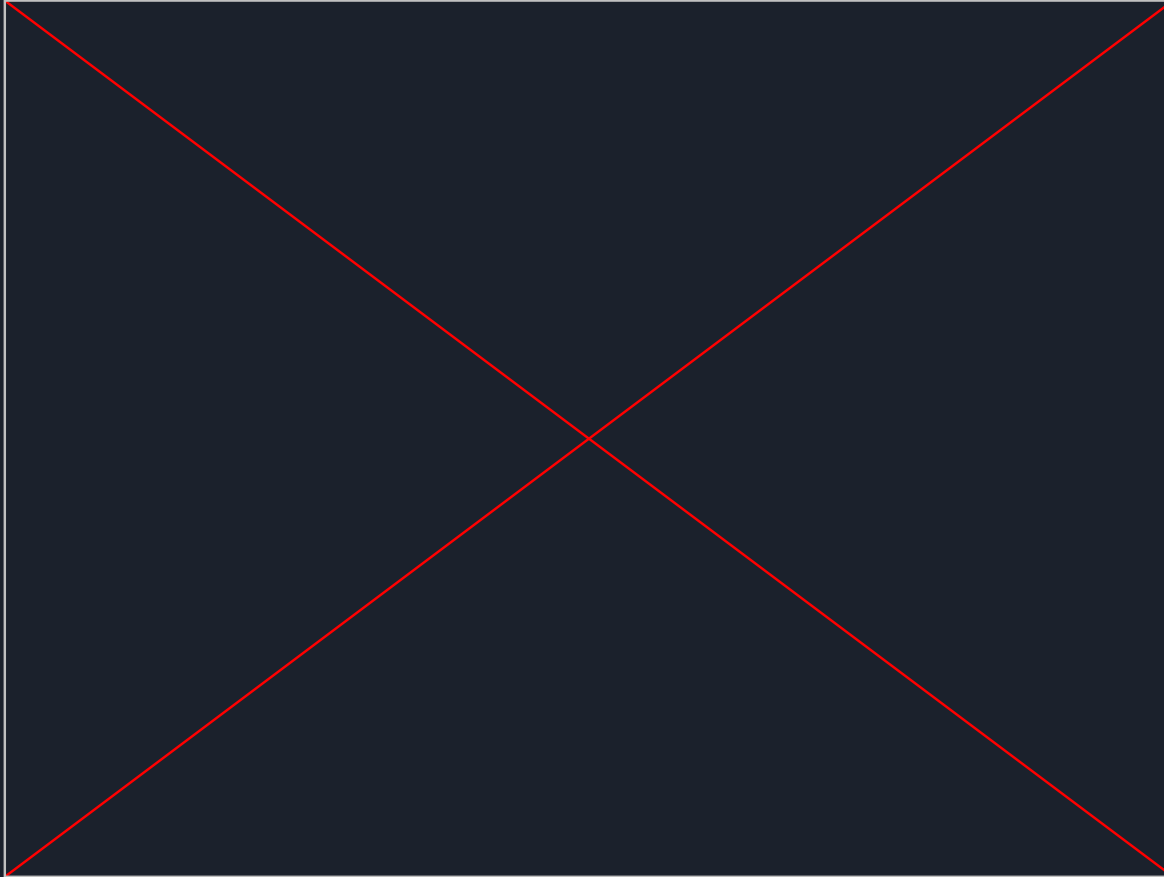

Milestone 2 Matrix

| Task	Completion	Thomas	Anthony	Josh	Varun
1. Design front end ● Home Screen ● Input Bar ● Report Screen ● Database Screen	40%	33%	33%	33%	0%
2. Set up AI model on AWS	100%	0%	0%	50%	50%
3. Establish basic connection between AI and the API	75%	25%	25%	25%	25%
4. Build URL reader	90%	0%	0%	20%	80%
5. Develop rudimentary backend and API structure	50%	0%	0%	50%	50%

# Design front end

Set up AI model on AWS

Establish basic AI connection

- Model and URL reader are in back end, still need to be connected together
- Also need to connect model input to the front end

Build URL Reader

Develop rudimentary back end and API

- Still need to connect the backend functions together
- Still have yet to establish API routes. Frontend and backend are not connected yet

Milestone 3 Matrix

Task	Thomas	Anthony	Josh	Varun
1. Prompt engineering	0%	0%	50%	50%
2. Get a basic score of an article	0%	0%	50%	50%
3. Start process to break text down into tokens	0%	0%	50%	50%
4. Develop the backend database	0%	0%	100%	0%
5. Article Report/Publisher Cards	50%	50%	0%	0%
6. Article meta data connection	50%	50%	0%	0%
